

Prepare for OSHA Compliance Audits

Process Safety Management and National Emphasis Training

SIEMENS

January 14 - 15, 2010

Join the Mary Kay O'Connor Process Safety Center, Siemens Energy and their top PSM consultants for this two-day "OSHA PSM NEP" course. This training will provide an in-depth look at OSHA's 14 point program and will teach you how to prepare your facility for an OSHA NEP inspection.

Speakers

Don Nguyen, Siemens Principal PSM Engineer and ex-OSHA manager
Verne Ragle, Siemens Mechanical Integrity Consultant
Ahmer Irshad, Siemens Senior Consultant
Sheri Sammons, Siemens Process Safety Consultant

Learning opportunities include:

- OSHA PSM Standard interpretations
- Refinery NEP and Chemical Plant NEP directives
- IPI static questions (Refinery NEP)
- Top violations and penalties issued under the Refinery NEP
- Answers to general questions about MOC, MI, PHA, PSI or PSM
- Risk-Based Inspection of process equipment
- Developing a PSI framework for PSI Management
- How to build smart KPI models for each PSM element
- Networking
